Overall our show went very smoothly. Beth began with giving us an update, and we transitioned into the news segment where Beth talked about a severe car accident, a fire, and the survivor of an unsolved arson given the little girl a trip of a lifetime. In the second portion of our news segment, Catherine talked about the man moved to new trailer, a McDonald's holiday surprise and a man who saved his son's life with a gun. After the break Elza gave the weather report and we started off the entertainment segment with Jaslyn talking about the new premiere of "Fuller House", Ms. Universe, and Bella Thorne and her Hollywood mean girl. Elza finished up the show discussing Kelly Clarkson, Mariah Carey and Justin Bieber in Canada.
